WHO FACILITATES THE GRIP STUDENT LEADERSHIP CONFERENCE?

This conference does not feature guest speakers, but is presented by a team of specialists in the area of student leadership. The GRIP Leadership team is comprised of young men and women who know what it's like to be in the shoes of a student leader. Some team members are recent school graduates with the ability to share from their own recent experience. Other team members are in their twenties and thirties and have worked across thousands of schools to develop a career exploring what works, what's current and what's possible in the area of student leadership.

The youthful and professional nature of the GRIP Leadership team is such that teachers consistently compliment about their ability to engage the students whilst presenting a wealth of meaningful leadership concepts. (More information on GRIP Leadership is available at www.gripleadership.co.nz.)

2022 PRIMARY PROGRAM - THEME: RAISING THE STANDARDS

All sessions include main presentations, interactive activities, discussions, leadership games and entertainment. Below are the topics ONLY.

****ALL BRAND NEW SESSIONS****

8.45am Doors Open for All Schools

9.15am **SESSION 1**

TOPIC ONE: Stepping Up to Leadership

Student leadership is more than filling positions and doing some odd jobs the way they have always been done in years past. This session explains that any student can lead by striving to do things better than they have been done before. Using the acronym of STEP this session challenges students to step up the way that they serve others; take initiative; exemplify school values; and set a purpose. These 'step up' areas are taught using a series of games and activities, including the sharing of ideas between schools.

10.45am Morning Tea

11.10am **SESSION 2**

TOPIC TWO: Stepping Up Integrity

Having 'integrity' is more than just being an honest and upstanding student. Using roleplay, stories, discussion and games, this topic focuses on four practical ways to step up integrity: show what is right; tell the truth; encourage others to do what is right; and persist if you are criticised.

TOPIC THREE: A New Standard of Ideas

A leader shouldn't settle to always do things the same as before, but should be challenged to achieve even more. This practical workshop will showcase dozens of impressive ideas that students have implemented at other schools, which are also realistic and meaningful. Activities during this workshop will enable students to have discussions with other schools, to share experiences and generate new ideas together.

12.30pm Lunch Break

1.00pm **SESSION 3**

TOPIC FOUR: Raising the Standard of Teamwork

For student leaders to raise the standard of what they achieve, it requires raising the standard of how they work as a team. Using practical examples and activities, this topic teaches students the five steps to working together to successfully achieve one of their own ideas.
